SyncMate covers all your sync requirements for Mac. SyncMate supports a large variety of devices allows syncing Mac simultaneously with Android devices, unlimited number of iOS devices, other Macs, any MTP devices, and mounted storages.
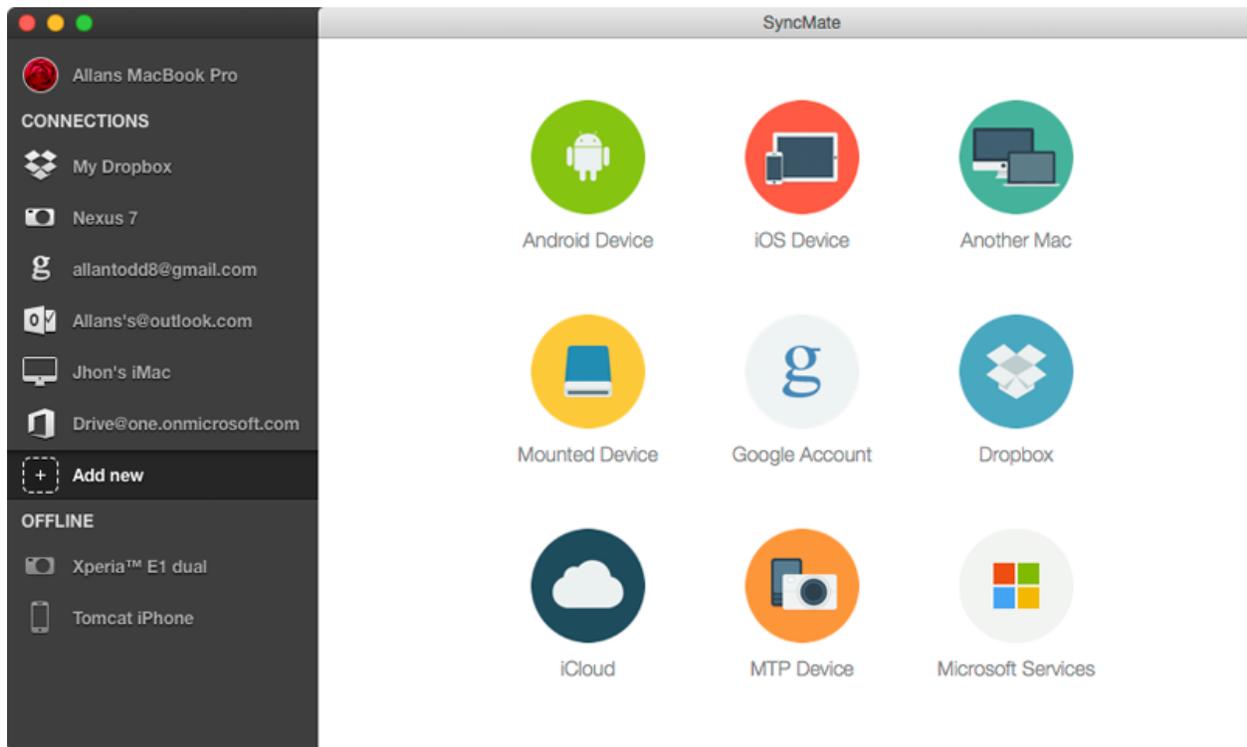

SyncMate is offered as a Free edition and Expert edition.

**SyncMate Free Edition** covers basic syncing needs and allows:

- Reading text messages without reaching for your cell;

- Syncing the Calendar events with supported devices;

- Syncing Mac Address Book with its analogs on supported devices;

- Syncing everything in background.

SyncMate Expert Edition extends the range of sync options tremendously for your Mac with multiple devices:

- Sync photos and videos on Mac with folders and libraries on supported devices;

- Sync your iTunes content with playlists, libraries and folders on devices;

- Sync folders between your Mac and devices. SyncMate supports multiple file types;

- Text from Mac: create, send, and delete text messages on full-size keyboard;

- SyncMate keeps your call history;

- Sync your Reminders with its analogs on supported devices;

- Sync Safari bookmarks in any direction between your Mac and devices;

- SyncMate offers automatic sync;

- Backup your important data;

SyncMate can also sync data with online accounts and cloud storages! It supports Outlook and Office 365, iCloud, Google account (Google Drive is supported), and your Dropbox account!
